RED VALLEY F.1

Ideal hybrid for late transplantations with againg in 110-115 days. The fruit is oval-long with size of 75 g, very uniform and high firmness. The plant is vigorous and covering, very healthy and reccomended for every type of field, even the particularly "tired" ones. This hybrid has an excelent fruit setting and good for over-ripe. The fruit has thick and very firm flash, high Brix and excelent colorour. Is reccomended for paste and diced production. Resistent to Pseudomanas (Pst) and nematodes.

Categories: PROCESSING TOMATO

INFORMAZIONI AGGIUNTIVE

Botanical Name	Lycopersicon esculentum L.
Produced by	Esasem
Variety	
Destination	processing
