

DEGHEIO F.1

Tomato marmande hybrid with good shelf life characterized by high resistance to nematodes and its great red colour. Fruits have green shoulder, well ribbed. The size is uniform of 200-240 g and shelf life 10-12 days long (at room temperature) without changing its excellent organoleptic qualities. It is recommended for "beef" yield and for red fruit utilization. The plant is indeterminate, vigorous, with short internode, very early cycle and high fruit setting. High resistance (HR) to VaVd(Verticillium), Fol 1 (fusarium), Pst (Pseudomonas t.), ToMV (tomato Mosaic Virus). Intermediate resistance (IR) to MaMiMj (Nematodes).

Categories: INDETERMINATE TOMATO

INFORMAZIONI AGGIUNTIVE

Botanical Name	Lycopersicon esculentum L.
Produced by	Esasem
Variety	Degheio F.1
Destination	Fresh Market
Typology	Standard indeterminate
Shape	Well ribbed. Multilocular with full flesh.
Inflorescence	Cluster with 4 – 5 fruits
Colour	Great colour inside and bright uniform red at full ripening
Consistency	Very good with excellent shelf life
Weight	180 – 220 gr
Vigor	Good with short internode
Leaf Cover	Good
fruit set	High
Cycle	Very short
Strength	HR: Fol 0,1, HR: ToMV:0-2, HR: Va:0, HR: Vd:0, IR: MaMiMj
Use	Greenhouse, Open Field
Note	Great Marmande to be harvested at full ripening.
