## **RED BULL F.1**

Hybrid of the red bullhorn type. Plants have a medium-high erect habit and good covering foliage. Recommended for open field and greenhouse cultivation. Fruits are of good size, reaching 25 cm in length and an average weight of 160 g. The flesh is sweet with medium thickness and a bright red colour when ripe. Suitable for greenhouse and open field. Resistant (HR) to Tobamovirus (Tm: 0).
