

ELOGIO FI\* (ES 6820)

Description: new elongated red hybrid, with a medium-high vigor plant, which gives good coverage and protection of the fruit throughout the growth and ripening phase. Medium-sized fruits of around 70-80g are suitable for industrial processing standards for canning. Excellent quality of the fruit in terms of external and internal color, reduced taproot, good consistency and resistance to overripening in the field.
