

ALBO (ZUW 10055) F1

Light green zucchini on the Eskandarany type segment.

Fruit is cylindrical with slight club shape, with very attractive light green and shiny colour. **Good tolerance to handling and storing.** The plant is open with short internodes, easy to pick by hand with good vigour and erect habit. **ALBO can be grown in greenhouse for spring crop and open field.**

Resistences:

IR: WMV / ZYMV

Categories: [ZUCCHINI](#)
