

TALES F.1

Pear tomato hybrid with "full flesh" fruit of excellent colour, characterized by few seeds and very little juice. The few seeds are contained in a compact gel. The plant has medium-late cycle, is vigorous and determinate, with good leaf covering. It produces fruits of good size and weight of 90 g. Recommended for paste and diced tomatoes. It guarantees very good processing yield. Intermediate resistance (IR) to nematodes.

Categories: [PROCESSING TOMATO](#)
